ENVIRONMENTAL SOLUTIONS

Environmental Consulting Services

- Phase I & II Environmental Site Assessments (ESA)
- Soil/Groundwater/Soil Vapor Assessment and Investigation
- Underground Storage Tank Closure/Management Services
- Solid Waste Compliance Sampling and Landfill Monitoring
- Regulatory Compliance Services
- Spill Prevention Control and Countermeasure (SPCC) Plans
- Hazardous Waste Management
- Litigation Support
- Storm Water Pollution Prevention Plans (SWPPP)

Remediation and Brownfield Redevelopment Services

- Risk-Based Corrective Action Plan Development
- Active Remediation Design/Implementation
- Vapor Intrusion Modeling and Consulting
- Brownfields Consulting
- Voluntary Cleanup Program (VCP) Services

Solid Waste Design and Management

- Landfill Design & Permitting
- Gas Collection and Control Systems
- Construction Quality Assurance
- CCR Design & Permitting

Gas Collection and Control Systems Engineering Services

- GCCS System Design, Analysis, Construction Management
- LFG Migration Analysis & Mitigation Design
- Gas-to-Energy Feasibility Studies, Design, and Permitting
- Title V & Greenhouse Gas Reporting
- Carbon Credit Assistance
- Remediation Design/Construction Services

Gas Collection and Control Systems Field Services

- GCCS Construction, O&M, and Repair
- Flare O&M and Repair
- Data Logging & Telemetry System Installation
- Field Investigation & System Audits
- Well Field Tuning & Perimeter Monitoring

Energy Services

- Landfill Beneficial Reuse
- Waste-to-Fuel
